SHAHANA SALAM

Perinthalmanna, Kerala | salamshahana393@gmail.com | +91 9567596136 | linkedin.com/in/shahana-salam | github.com/Shahana-salam

PROFESSIONAL SUMMARY

Entry-level Full-Stack Developer with hands-on experience in building scalable web applications using Python, Django, and Django REST Framework. Completed a 3-month internship at Inmakes Infotech and earned the IBM Full Stack Software Developer Professional Certificate (V5). Experienced in developing authentication systems, REST APIs, and SQL database integration. Strong foundation in backend development and responsive UI design. Seeking an opportunity to contribute and grow as a Python/Django Developer.

EXPERIENCE

Python Full-Stack Developer Intern
Inmakes Infotech Pvt. Ltd **Oct 2025 – Dec 2025**

- Developed and maintained full-stack web applications using Python and Django.
- Implemented secure user authentication (login, registration, session handling).
- Built REST APIs and performed CRUD operations using Django ORM.
- Integrated MySQL/PostgreSQL databases for structured data management.
- Debugged and optimized application features to improve performance.
- Used Git for version control.

PROJECTS

E-Hospitality – Healthcare Management System

Django | PostgreSQL

E-Hospitality is a full-stack healthcare management system designed to streamline patient care, administrative operations, and clinical workflows within healthcare facilities. The platform integrates patient services, hospital administration, and doctor operations into a unified, secure, and efficient system to improve communication and quality of care. 🔗 GitHub:https://github.com/Shahana-salam/Ehospital.git

Tourist Destinations – REST API Application

Django REST Framework | MySQL

Designed and developed RESTful APIs supporting full CRUD operations for managing tourist destination data. Implemented image uploads and Google Map integration to enhance usability and structured data access. 🔗 GitHub: https://github.com/Shahana-salam/touristProject.git

Blog & Image Sharing Platform

Django | PostgreSQL

Developed a content management platform with secure authentication, post and comment CRUD functionality, search, and pagination features. Built an admin module for efficient content moderation and management. 🔗 GitHub: https://github.com/Shahana-salam/your-blog-repo

Bridal Station – Event & Rental Management System

Django | JavaScript | MySQL

Developed a full-stack web application enabling online dress rentals and service bookings with real-time availability tracking. Designed an admin dashboard to manage inventory and bookings, improving operational efficiency and user experience.

EDUCATION

Bsc Computer Science **Graduate:2025**
University of Calicut, Kerala, India
Pursued BSC CS from Al Jamia Arts & Science College, Perinthalmanna, Kerala, India.

Higher Secondary Education **2020-2025**
ASMHSS Velliyanchery, Kerala, India
Result obtained 89%

SKILLS

- Python, JavaScript
- Django, Django REST Framework
- HTML5, CSS3, Bootstrap
- MySQL, PostgreSQL
- Git, GitHub, VS Code, PyCharm
- REST APIs, CRUD, Authentication

CERTIFICATIONS

- IBM Full Stack Software Developer Professional Certificate (V5) - Coursera
- Python and Django Web Development Professional - SINET (Skillnet Education & Certification Division)
